The committee needs to develop a policy for placing members on the board committees. Leslie, Deb and Dennis will work on this.

Dennis Dean explained how he teaches strategic development and that it is a lengthy process to do correctly and that a piecemeal approach to strategic development is not correct.

The committee will move forward with the idea of strategic development but feels that there are things that need to be done immediately. Changes to the registration department will be their first focus with Kevin in charge of this process.
