

RIDE INFORMATION
CHIEF JOSEPH TRAIL RIDE #56
July 30 - Aug. 5, 2023
Lolo Pass
(Wendover, ID to Woodman School, MT)

IMPORTANT NOTICE:

All participants – please check the ApHC Trail Department webpage at www.appaloosa.com for the most current updates about the CJTR. This may include weather advisories, directions to the camp site or any changes that may affect you as you prepare for the ride.

Assembly Camp:

- Camp opens Saturday at Noon, July 29, 2023.
 - No meals or horse feed are provided until the Sunday evening meal on July 30.
 - Participants must provide certified weed seed-free feed for their horses until the evening feeding on July 30.
- Assembly camp will be at Wendover Gravel Pit.
- In order to ride on Monday, all horses and riders must be checked in by 5 p.m. Sunday.

Fuel: Please top off your tanks in Lolo, MT or Kooskia, ID before getting to Assembly camp! There will be fuel at the Lochsa Lodge (near Assembly Camp).

Mosquitoes will be prevalent during the entire ride. Don't forget **insect repellent** for yourself and your horse.

Time Zone: Mountain Time.

Ride Type:

Progressive Ride. Riders will ride different trails each day. Camps will be at different locations throughout the week.

Check-in:

Check in will be from 10 AM until 5 PM, Sunday July 30, 2023.

All ride fees must be paid in full by June 16, 2023, late fees will be assessed after this date. No exceptions. All riders, non-riders and horses must be checked in by 5:00 pm Pacific Daylight time July 30, 2023.

Please bring the following to the check-in station at the ride:

- Your horse

- Your horse's ApHC Certificate of Registration or Approval Certificate for participating on the ride
- Your horse's negative EIA (Coggins) test (**dated within the previous 12 months**)
- Your horse's health certificate (**dated within the previous 30 days**)
- Your horse's declaration of fitness signed by your vet – form available on the ApHC web site Chief Joseph Trail Ride page.

Note: Be sure your vet uses your **horse's registered name** on the health, Coggins, and declaration of fitness papers. Barn names won't work since we have to match the horse to the Certificate of Registration and to the health, Coggins, and fitness paperwork to make sure that the correct horse has the necessary health papers. **It is recommended that you contact the Idaho State Veterinary offices directly with questions you may have relating to the requirement. All horses, regardless of state of origin, are required to have a negative coggins and current health certificate in order to be on the ride.**

Idaho State Brand Inspectors may be present. The State Veterinarian may also be on-site inspecting health paperwork. See **Transporting Your Horse into Idaho** on the ApHC Web site for more information about state requirements. **PLEASE ALSO BE AWARE OF HEALTH REQUIREMENTS FOR EACH STATE YOU ARE TRAVELING THROUGH!**

For health and Coggins papers, you may need to provide the names of the towns nearest the start and end locations of the ride. The ride will start at Wendover Gravel Pit (near Lochsa Lodge) and end at the Earl Tennant Campground (near Lolo, MT).

Vehicles:

There is a \$55 charge for each truck/trailer combination that travels and camps with the ride. Any individual car or truck staying overnight must also pay this fee.

Private vehicles must have a driver to move them between camps. The driver must be a current ApHC member and pay the non-rider fee. Because camps are close this year, riders may be able to share drivers to move multiple vehicles.

Crew members are not allowed to drive personal vehicles.

Preventing Weed Spread:

We are working with the Forest Service, BLM and other government agencies to aid the prevention of weed spread to the pristine areas we will be visiting.

All vehicles (including trailers) must be free of dirt, mud (weed seeds). All participants are to thoroughly wash your vehicle's undercarriage before arriving at the ride. It is suggested you locate a commercial washing station along your way to the ride and get your vehicle clean. Our ride begins in a remote area where washing stations are

typically not available. You must address this issue before arriving at assembly camp.

Also, please **feed your horse certified weed seed-free feed at least 72 hours before arrival** to clean out its system and only travel with certified weed seed free feed in your trailer. Thank you!

Services/Facilities:

Camping is primitive. There will be no electricity or running water.

Potable water, portable toilets and a picket line will be provided.

A farrier, veterinarian and a physician will be available. Attendees utilizing the services of these individuals will be responsible for payment at the time services are rendered payable directly to the service provider.

Bring your own solar shower bags (2 for each person recommended.) Portable shower tents are recommended for privacy.

Bring reusable water bottles. To reduce cost and to help us minimize environmental impact, individually bottled water will not be provided in camp. Please help us with our low impact initiatives and bring your own reusable water bottle to be refilled from the potable water source.

Medical Services:

Dr. David Hill, the ride physician will be on-site. The medical form you provide with your reservation will be given to the ride physician and kept strictly confidential. You are responsible to pay for any services rendered at the time they are performed.

Veterinary Services:

Veterinary Services will be available at the ride. You are responsible to pay for services rendered at the time they are performed.

Farrier Services:

Farrier Services are pending at this time. However, if available, you are responsible for payment at the time services are provided.

Contacts:

- Idaho State Brand Inspector – Cody Burlile – 208-884-7070
- Idaho County Sheriff – 208-983-1100
- Syringa Hospital & Clinics – 208-983-1700
- Clearwater Valley Hospital & Clinics- 208-476-4555

Meals:

Our first meal (and the first feed available for horses) will be Sunday evening, July 30; the last will be breakfast on Saturday, August 5.

Guests:

Guests are welcome to attend at meals and evening programs. Cost for the meals is \$15 for breakfast, \$15 for lunch and \$20 for dinner. Please pay the Ride Manager before entering the meal line.

Due to insurance requirements, we cannot allow visitors to accompany us on "day rides" or stay overnight. If a person wishes to ride or attend longer than one evening, they must pay for an ApHC membership and submit a ride or non-rider application.

Horses:

See check-in procedures above.

All horses must be ApHC-registered Appaloosas or hold ApHC approval to be used on the ride (see Chief Joseph Trail Ride horse approval form found on ApHC website) and must be 4 years old at the time of the ride. We understand that horse substitutions are sometimes necessary, **so if you are bringing a registered Appaloosa or ApHC approved horse that is different than you originally stated on your application, please let us know at check-in so we can document it.**

In order for your horse to be eligible to receive lifetime awards for participation on the ride and/or for the horse to earn award mileage for the ride, you MUST provide the name and registration number of the horse to ApHC. It is your responsibility to ensure that ApHC has accurately represented your horse's participation on the ride. Please complete the ride reservation form in its entirety to ensure recognition. Horses must be enrolled in the ApHC distance program to accrue mileage for the ride.

Horse Feed & Water:

Certified weed seed-free grass hay will be provided beginning Sun. evening, July 30 and ending Sat. morning, August 5. We will dispense hay at a rate of 18 lbs/day per horse. Bales will be dispensed and it's the responsibility of the rider to portion hay to their horse at each feeding. There will likely be two hay deliveries from the supplier during the course of the ride. You can feed directly on the ground, but **hay bags** are best if feeding from your trailer. This will help prevent waste and keep the area cleaner. If you feed on the ground, you are responsible for cleaning up any leftover hay after your horse is finished. You will need to re-tie your bale for transport. If you have one, a **bale bag** or heavy-duty trash bag will aid in transporting the remainder of your bale from one camp to the next. Please bring certified weed seed-free hay to feed prior to Sunday evening. Bring a permanent marker to label your tags

and hay. You may bring and feed your own weed seed-free **grain or supplements.**

There will be community **water troughs** set up in camp, and mid-day water stops for horses along the trail. Please bring a feed/water bucket for your horse.

Because of health concerns we encourage you to strictly use buckets to water your horses, and not to allow them to drink from the community water source.

Typing Your Horse

Because of safety concerns, portable electric pens are not allowed. A Picket Line will be provided. While in camp, horses must be tied to the picket lines or trailer tied. It is a good idea to bring a laminated card, printed with your horse's name, to tie onto the spot on the picket line you wish to reserve. Hole-punch the card and affix a cord to tie onto the picket ring.

When tying in the vicinity of other horses, please leave enough space between each animal so that it prevents the horses getting tangled up or kicking each other. If your horse is competitive/dominant and may fight others, move him to an area free of other horses. Only allow enough slack in the rope to allow him to touch the ground with his nose. Any more rope than this provides the opportunity for him to tangle himself. If you are not easily located, and your horse is risking injury to himself or another (as determined at the discretion of the picket line crew), the picket line crew will relocate your horse to a different spot on the picket line. If you notice your horse is not where you initially tied him, please check in with the picket line crew. No animals will be tied directly to trees in camp areas. Horses may only be tied to trees with the use of a tree saver. Horses may be tied to a tree for a short period of time on the trail.

Horse Conditioning:

We will ride an average of 20 miles a day. A good rule of thumb for conditioning is that your horse should be ridden at least 10 miles 3 times a week by the time the ride starts (30 miles/week).

Please do not bring overweight horses. You should be able to feel the horse's ribs easily under the skin. If you cannot feel the ribs, the horse is overweight and prone to complications such as heat exhaustion and colic.

Please have hoof protection for your horse prior to arrival. This will be a very rocky ride in some areas.

Preventing Colic – Keeping your horse hydrated:

When a horse is excited or stressed due to travel and exposure to a new environment, he may not drink as he normally does. Some horses that are used to drinking from a source at home may not drink from water sources on the trail, such as a stream. They need to learn that they

can use these sources as well and you may need to practice this at home.

Never pass up water on the trail if you can help it. "Drink early, drink often." Frequent, smaller intakes of water are better than fewer, larger intakes. Guzzling by a hot horse can itself lead to colic. But it's better to have water than not. An excited horse will be more relaxed and tend to drink if you have a buddy that stays with him. If he refuses to drink, try dismounting and loosening his girth. Relax for a bit to show him it's okay to take a breather.

Two good tests for dehydration:

- a. Skin Pinch: pinch the skin on the shoulder. When properly hydrated it should snap back immediately. When dehydrated, the skin will stay puckered for longer periods.
- b. Capillary Refill: Press on the gums with your thumb. Upon removal, the blanched area should return to the same color as the surrounding area immediately. The longer refilling takes, the more dehydrated your horse.

Horse Sense

Ride centered in the saddle. It is very hard on a horse to ride "askew" or off center. Staying balanced will make your equine partner's job a lot easier. Every so often, stand in the stirrups to take the pressure off his back. Monitor him while climbing and give him rests when needed and keep your weight forward –over the withers- to keep the pressure off his kidneys.

Preventing "Hot Spots". When arriving in camp after a day's ride, it is a good idea to leave the saddle on and let the horse stand and cool down. Loosen the girth but leave the saddle on for 15-30 minutes. This will help prevent "hot spots" and resulting sores that can occur when a rider immediately dismounts and unsaddles.

Be aware that there will be riders with varied levels of horse and trail experience, and horses with different levels of training. Try not to crowd other horses. If your mount has a tendency to kick at other horses, tying a red ribbon to your horse's tail will alert others. Flagging tape is available from the scouts.

Please bring a solid and experienced mount, not one that does not mingle well with others. This is a time for enjoying yourself and your horse, not for training. There are too many horses, people and potential hazards for an untried horse.

Rental Horses:

The ApHC does not provide or rent horses. Please see the CJTR riders Facebook page to connect with individuals who may have an extra horse to rent.

Packing Your Saddle

Load and tie all items such as camera bags, binoculars, slickers, etc. securely. If your horse

should spook or stumble, items will flop around and this could spook your horse even more. Please avoid this common cause of wrecks and injuries on the trail.

Horses in Camp:

Avoid areas congested with other horses or people. For safety's sake, horses should not be unattended for more than a few hours, except at night. Keep a close eye on them. They may become caught or tangled in some way, injure themselves or do ecological damage. If you capture a horse that has escaped during the night, tie him out of reach of other horses until the owner can be located. Using grazing hobbles is not permitted on ApHC trail rides since they have no way of restricting the horse from coming into contact with other horses, property, etc.

Awards:

This ride provides the opportunity for an ApHC-registered Appaloosa to earn mileage toward a Register of Merit for participating on ApHC-sponsored trail rides provided that the horse is enrolled in the ApHC Distance Program. **400-mile Register of Merit, 800-mile Superior Event Award**, and a **1000-mile medallion** are available for ApHC registered horses enrolled in the Distance Program.

The Chief Joseph Medallion may be earned by a ApHC registered horse participating on the Chief Joseph Trail Ride for 10 consecutive years.

A Thirteen Year Award is available for ApHC registered horses that have attended that many years (they don't have to be consecutive participation).

Enrollment in the Distance Program is a one-time \$35 fee, good for the life of the ApHC registered horse. There is also an annual recording fee of \$10 for every year after the first year of enrollment. See our website, www.appaloosa.com for enrollment forms, or contact the ApHC. Horses must be enrolled in the distance program prior to earning credit for miles ridden. Miles are not awarded retroactively.

At the conclusion of the ride, riders are required to submit a properly completed ride report, signed by the ride manager to the ApHC to accrue mileage.

Historical Presentations/Entertainment:

Historical Presentations are being organized.

Chief Joseph Youth Foundation and Nez Perce Appaloosa Horse Club Silent Auction

Proceeds benefit Nez Perce Youth. Item donations for the auctions are graciously accepted by both organizations.

Alcohol:

Consumption is strictly prohibited while riding on the trail.

Smoking:

Smoking while on the trail is strictly prohibited. Smoking in camp is permitted inside a vehicle with no combustible materials within 3 feet.

Fires:

No fires allowed; this includes barbeques, gas-powered fire pits or any other open flame.

Participants:

All participants must be ApHC members and must be 12 years of age or older. Riders or Non-riders age 12-18 must be accompanied by a parent or guardian.

Dogs:

Are allowed in camp if leashed (on 6 ft. or shorter leash), controlled at all times by their owner. Dogs are not allowed on the trail. Dogs are not allowed within 50 feet of the cook area nor the assembly/eating area. Any dog in camp that may be considered a nuisance or threat to other campers or to livestock **will be required to be removed from camp by their owners**. The Ride Manager has the final determination regarding any negative actions by pets and will respond promptly to any complaints. Owners are responsible for researching and abiding by any state laws regarding the transporting of pets.

Ride Conditions:

The area is National Forest ground with lots of trees, rolling to steep terrain and rocky areas throughout the ride. Trails will go up and down around 3,000 feet elevation several times during the ride. There will also be multiple water crossings.

Schedule for the week:

Sat. July 29th

Noon – 7:00 p.m.: Check-in at Assembly Camp

- You must only bring certified weed seed-free hay into assembly camp. Please be prepared to show proof of certification.

Sun. July 30th

10:00 a.m. – 5:00 p.m.: Check-in at Assembly Camp. (Brand inspection, State Vet inspection of animal health papers, proof of negative Coggins test, registration papers, horse declaration of fitness, etc.) *Horses must be checked in by 5 p.m. to participate on Monday's ride.*

4:00 p.m.: First Year riders or drivers meeting at the dance floor.

5:00 p.m.: First hay available. Tag and tie/bag the remainder for following feedings.

6:00 – 7:00 p.m.: First Meal
7:00 p.m.: Announcements/Orientation
8:30 – 10:00 p.m.: Music and dancing

Monday July 31st - Friday August 4th

Riders: feed and water your horse first thing in the morning
6:00 – 7:00 a.m.: Breakfast. Don't forget to pack your sack lunch for the trail! Lunches are provided by the cook crew or you can bring your own.
8:00 a.m. – Ride out. All vehicles must be ready to move camp to the next location
6:00 – 7:00 p.m.: Supper
7:00 p.m.: Speakers and announcements
8:00 – 10:00 p.m.: Music and dancing

Saturday July 30th

- 6:00 – 7:00 a.m.: Breakfast.
- Break camp by Noon
- Extra hay (if any) will be sold at cost.
- So long till next year, partner. Safe travels.

Private Property/Public Lands:

Some of the ride route may be on private property. We will primarily ride across National Forest and other government agency property.

Please be respectful in conduct and camp cleanliness. We strive to leave as little impact on the land as possible.

Any issues must be brought directly to the ApHC ride manager. We are only able to continue offering the ride each year due to the gracious support from private and public landowners. We certainly don't want to cause them to deny our request when we travel through their area in 13 years because of any hard feelings resulting from complaints. Likewise, we should be respectful of their boundaries/rules for use of their land and do everything possible to minimize impact on their property. These same policies can be applied to use of USFS, BLM and government-owned land. The ride is wholly dependent upon the cooperative efforts of the ApHC, riders, land owners and government personnel so please help us to maintain positive relationships with all involved.

A list of landowners and contact persons for BLM, USFS etc. will be provided at the ride. A personal thank you note from each of you to these gracious landowners & managers would show our appreciation and lay the groundwork for the continuation of our ride.

While on the Trail:

Courtesy on the trail is a must. Please be mindful of how your riding affects others. You must stay behind the Trail Guide and in front of the drag scout during the ride.

The ApHC will not be responsible for those that leave the main group.

Should you need to stop on the trail, pull over to the side so others may pass. Your horse is more apt to remain calm if you have another horse & rider stay with you while stopped.

If you need the services of the vet, farrier or physician contact a scout who will radio for assistance.

If you come upon someone with an injury or with an injured horse, as long as they have someone with them, please keep moving. Stopping can hold up the progress of help getting to the person needing assistance.

Our scouts are there to guide you, so all may experience the safest and most enjoyable ride possible. Please follow their directions.

What to do next...

Pay the balance of your ride fees and/or ApHC membership fees to the ApHC by the deadline. Fees must be paid in full beforehand to participate. No ride fees will be accepted at the ride.

Acquire the necessary horse health certificates, as noted in 'check-in' above.

Check that your vehicle is in good mechanical condition and wash the undercarriage of your truck and trailer. We want you to arrive safely.

ApHC Trail Ride Checklist

The following are lists of items you may want to bring. These are only suggested items and may vary depending on your situation. Important items in **bold**. Notes:

Be prepared for any type of weather.

Try to keep the number of bags and containers to a minimum. "Nesting" can help save space. For example, stack your feed and water buckets one inside the other and place all grooming items inside the top bucket. Put all this, plus any additional horse gear, into a secure canvas bag or container, so you won't lose items along the way.

Pack sleeping bags, tents and clothing into water proof/resistant bags or containers, secure so you don't risk damage or loss of items.

Avoid breakables (i.e. glass), in your luggage, use non-crushable plastic or similar containers instead.

Please bring a permanent marker to label your personal items and hay.

Vehicle:

All vehicles traveling on the National Forests and/or government agency property during the forest fire season must be equipped with a **shovel** in serviceable condition, which shall be not less than 30 inches in length overall, and a **bucket** and/or a water bag of not less than 2-gallon capacity.

Fuel (top off tank before arriving at camp)

Brakes

Brake fluid

Transmission fluid

Power steering fluid

Tires - Tread/Inflation

Belts

Hoses

Coolant level?

Fire extinguisher

Spare tire; inflated?

First Aid kit

Flashlight & batteries

Maps

Directions to camp

Emergency tool kit

Air pump

Auxiliary gas tank or fuel can and funnel

Brake fluid

Electrical wire & tape

Extra engine belts

Jack

Lug wrench

Jumper cables

Tire pressure gauge

Tow chain or strap

Shovel and bucket

Water – for person, horse and radiator

Extra fuel for vehicle

Horse:

Veterinary (Health) Certificate of inspection (dated within 30 days), Proof of Negative Coggins (dated within 12 months), Signed Declaration of Fitness for your horse, original or copy of original Certificate of Registration. Refer to state agencies for further information about transport requirements.

Saddle

Saddle Pad

Saddle/ Pommel Bags

Horse Blanket

Breast Collar

Hing Girth

Bridle

Halter

Lead Rope

Spurs

Twitch

Grooming Supplies

Hoof Pick

First Aid Supplies

Insect Repellent

Picket Line/ High Line

Tree Savers

Feed bag or bucket

Water bucket

Leather pouch

Horse feed

Hay net or bag

Collapsible water container for watering your buddy on the trail (there are backpacking dog dishes that work perfectly for this.)

Camp Gear:

Shelter (tent)	Notepad and pen or pencil
Waterproof tarp or ground cloth	Permanent marker
Bedroll/sleeping bag	Scissors
Binoculars	Emergency sewing kit
Lawn chair	Garbage bags
Pocket knife	Ziploc-type bags
Cleaning cloths	Soft cotton rope

Canteen or water bottle (remember that no bottled water will be available in camp so bring a refillable container for personal use)

Personal Gear

Duffel bag or suitcase	Bath towels
Any medications (Plan ahead. There are no nearby pharmacies in this area!)	Washcloths
Bandana or handkerchief	Toothbrush, floss and toothpaste
Boots	Extra roll of toilet tissue (just in case)
Galoshes	Shaving equipment
Shoes	Hand soap (non-phosphate biodegradable) and case
Gloves	Shampoo (non-phosphate, biodegradable)
Hat	Deodorant
Jacket	Comb or brush
Poncho or rain slicker	Sunscreen
Other clothing items such as jeans and shirts (plan for changing weather; bring layers)	Chap stick
Alarm clock & watch	<u>Insect repellent</u>
2 Solar Shower bags	Glasses and/or sunglasses
	Items for contact lenses
	Camera, film and batteries

The fine print... ApHC Disclaimer

The ApHC reserves the right to prohibit participation in the ApHC-sponsored Chief Joseph Trail Ride by any person or persons who do not abide by all ApHC or U.S. Forest Service or other federal agency rules or regulations. The ApHC may also ban attendance by anyone who does not recognize and abide by any laws and ordinances set forth by the State of Oregon, Idaho,

Wyoming, Montana or any county within. Any person or persons, who are prohibited by the ApHC from participating on the Chief Joseph Trail Ride for reasons stated above, will forfeit all ride and ApHC membership fees paid, and will under no circumstances receive a refund. They will also risk being prohibited from participating in future ApHC trail rides and subjected to possible ApHC Disciplinary Committee actions. The CJTR vet and/or doctor may also ask anyone at any time to leave the ride or to not ride. If this is a decision made for any horse/rider, this decision will be non-negotiable.

ApHC TRAIL RIDES SUMMARY OF RULES AND CONDITIONS

You must be a current ApHC member to participate in ApHC-sponsored trail ride events. This includes riders and non-riders.

All horses, with the exception of certain horses used by ride crew, must be registered with the Appaloosa Horse Club or must be approved for use on the Chief Joseph Trail ride.

Riders and non-riders must be 12 years old or older to attend this ride. Those under the age of 18 must be accompanied and chaperoned by a parent or guardian at all times. No minor will be left in camp unattended. The actions of said minors will be the sole responsibility of the parent or guardian. Minors are expected to adhere to any and all rules set forth by the ApHC. Failure to do so may result in disciplinary and/or criminal actions.

Participants shall not bring stallions, foals or horses younger than 4 years of age as of foaling date. Horses with any contagious diseases are not allowed.

All horses are required to be checked at the pre-designated check-in station for transportation and health requirements.

Horses and riders must be in good physical condition and able to spend 6 to 7 hours each day on the trail. Riders and non-riders alike must be self-reliant and able to handle all situations in adverse conditions.

The official ride veterinarian and physician shall have the authority to determine whether any person/animal is able to safely participate in any portion of this trail riding event. The trail coordinator and/or ride manager will enforce the veterinarian's and/or physician's decisions.

The ApHC requires the same health and transportation papers as the State in which the ride is being held. The ApHC also requires proof of ApHC registration for horses participating in the Chief Joseph Trail Ride. Laws may vary state to state, so you should contact the state's veterinary office, brand inspector's office or Department of Agriculture of those states you plan

to travel through. The ApHC reserves the right to inspect papers at any time.

All stock should be newly shod or have hoof protection and be ready for trail conditions they may encounter. The ApHC will not be responsible for any lameness of or injury to any horse participating on the Chief Joseph Trail Ride.

One horse per rider is the maximum allowed. The only pack animals allowed are those contracted by the ApHC for use on the trail ride. Please be responsible for your horse at all times. Don't leave horses in camp unattended.

All animals will be treated humanely. The ApHC Trail Coordinator and/or Trail Ride Manager has the right to determine what is to be considered inhumane treatment. Such individuals will be banned from participation, expelled from camp, and will be subject to disciplinary and/or criminal action.

Each participant is responsible for being aware of what type of feed is, and is not, allowed on the trail ride. Hay nets or hay bags will be required when feeding or you must clean up after your horse if you feed on the ground.

You will not be allowed to smoke or drink alcohol while riding on the trail, and firearms are prohibited at any ApHC sponsored event. Local law enforcement agencies will be notified should it be found that an individual or group is in possession of or using illegal drugs.

Dogs and other pets will not be allowed at group meals or while riding the trail. In camp, they must be caged or on a 6-foot leash at all times. Certain states will require health papers on pets also. The ApHC reserves the right to ask that animals which pose a safety risk or create a nuisance be removed from camp.

Use of grazing hobbles are not permitted on ApHC trail rides as it does not restrict the horse from coming into contact with objects within its surroundings. Portable fencing is not allowed on the Chief Joseph Trail Ride.

No ATV, motorbike, moped or bicycle will be allowed on any ApHC trail riding event. In certain situations, ApHC crew may use such as a means of transportation as needed in an emergency or camp/trail duty.

Individual campfires will not be allowed.

All individuals attending must register and pay fees, or be official guests of the ApHC. Those individuals found participating without registering and paying fees may be banned from participation on future ApHC trail rides and will be required to register and pay fees, including

late fees for the ride in which they are in attendance.

Individuals contracted by the ApHC will not operate vehicles for trail ride participants. These individuals may operate ApHC trail ride vehicles or their own personal vehicles only.

Any ApHC trail ride crew person that is issued crew identity, vehicle identity, radios, or any other trail ride equipment is responsible for returning said items to the trail coordinator prior to breaking camp the last day of the trail ride event. Crew may be charged a replacement fee for items not returned by the last day of the event.
