The heel catch is defined as a catch which holds from behind the steer's shoulder and back, around the flank, or on one or both heels, but not by the tail only. Any catch made by the header not being judged must be a legal catch defined as a catch that is around both horns, half-head or around the neck. The following catches are illegal: hondo passes over one horn and loops the other, loop crosses itself on the head catch or loop is in steer's mouth.
